Survey link

The assessment will be sent to each student/volunteer INDIVIDUALLY via email on October 10, to the email address listed in MyBeta. The survey link is unique for each person and will not work if it's forwarded to other people. The survey software tracks each individual member who takes the survey.

Who is it from?

The email is coming from a professional research firm, Dyad Strategies, that Beta has hired to administer the survey and analyze the results. "Beta Brotherhood Assessment" or "Beta Volunteer Assessment" will be clearly displayed in the email address or subject line.

I didn't get the email.

- First, check your spam or junk folder. Sort by date and look for emails dated October 10 or search for "assessment" as a keyword.
- Second, check which email address is listed in MyBeta. That's the email address the survey was sent to.
- If the email address in MyBeta is one that you can't access anymore, contact Noah McHale at the Administrative Office. He can update your email address and have the survey re-sent to you.

I deleted the email.

- First, go into your "deleted items" or "trash" folder and find it. Sort by date and look for emails dated October 1 or search for "assessment" as a keyword.
- If you emptied your trash and really can't find it, contact Noah McHale at the Administrative Office. He can update your email address and have the survey re-sent to you.

Lots of students and volunteers in my chapter didn't get the email.

If it's just a few individuals (10 or less), have them personally contact Noah McHale at the Administrative Office. He will need:

- Full name
- Chapter or campus
- Correct email address the survey should be sent to
- Noah will update your email address in MyBeta and have the survey re-sent

Please note that going into MyBeta to change an email address after October 1 will NOT automatically re-send the survey to the updated email address. The emails are coming from an external vendor.

If there are more than 10 members who did not receive the survey, have the VP of Administration or other exec officer send an excel spreadsheet to Noah McHale with the information above.

If most of your chapter (more than 50%) did not receive the survey, contact Noah McHale first. It's possible that your campus email server has blocked the messages. We can develop a workaround based on your unique circumstances.

There are members/advisors on our roster who are no longer active. Did they get the survey? Will that impact our participation rate?

Everyone on your roster as of October 1 will get the survey and be counted toward your participation rate.

Roster updates need to be completed by October 1, before we export emails from MyBeta to the survey vendor. Roster changes made on MyBeta after October 1 WILL NOT affect who gets the survey.

For roster changes after October 1, make those updates on MyBeta *and* contact Noah McHale. He can manually remove those men/advisors from your survey list.

What about collegians studying abroad, at internships or on "inactive" status?

All feedback from members is valuable, including men who might be inactive for any reason. Therefore, they will be given the opportunity to complete the survey. Consider personal outreach to those men, especially the guys studying abroad, so they know to complete the survey by the deadline.

We finish recruitment or add advisors after the roster deadlines. What do we do?

You don't need to do anything. We know that some schools finish recruitment later in the fall. We will not send the survey to men who pledge or advisors who join after October 1. They will have the opportunity to take the survey next fall, and you'll still get an accurate set of results about your chapter and advisory team.
